

CHERYL'S NEWS

April 2006

GROWING SEASON IS EARLY THIS YEAR!

Beginning the 1st week in April 2006, all customers who checked "every week" during the growing season will have their lawn mowed weekly. If your lawn is growing at a slower rate than most others, let us know immediately and we will keep you on "every-other-week" for a little longer. Be advised that we must have at least 24 hour notice for any schedule changes.

~ GET A JUMP ON THE SPRING RUSH ~

As our schedule really backs up in the spring months, now is a perfect time to contact Woody's Landscape to clean out grass and weeds from your beds, add new mulch, and trim your shrubs. Warm weather is fast approaching and fresh mulch will help control those pesky weeds. Adding mulch also is a good way to conserve water.

ORDER YOUR SPRING COLOR NOW!

PERISHABLE – NO GUARANTEE

Grass & Flowers are perishable commodities and cannot be guaranteed. acts of nature, vandalism, lack of maintenance & conditions beyond our control are not covered.

WWW.WOODYS-LANDSCAPE.COM

Check out Woody's Landscape new and up-dated website at the above address. You may also contact us and place orders for our services by going to our website. Another plus, is you will be able to meet our staff and learn something about each of us. It's always interesting to put a face with the voice to whom you are talking.
